

Amendment to the Specification

Please replace the last paragraph on page 16, lines 23-31 of Applicants' Specification with the following amended paragraph:

Communication media typically embodies computer-readable instructions, data structures, program modules or other data ~~in a modulated data signal such as a carrier wave or other transport mechanism, and includes any information delivery media.~~ The term "modulated data signal" means a signal that has one or more of its characteristics set or changed in such a manner as to encode information in the signal. By way of example, and not limitation, communication media includes wired media such as a wired network or direct wired connection, and wireless media such as acoustic, RF, infrared and other wireless media. Combinations of the any of the above should also be included within the scope of computer-readable media.
